Dr. Rakesh Kumar Chaudhary is a Designer, Artist, and Educator, a creative and innovative thinker with strong styling, Visualization, and problem-solving skills. I am living in Gurugram, Haryana, India. I was born in Mirzapur, Uttar-Pradesh but have lived most of my life in Allahabad. I earned my BFA (bachelor's in fine arts) from the University of Allahabad and MFA (master's in fine arts) from Banaras Hindu University, Varanasi, achieving a first-class honors degree in Applied Art (Visualization), and qualified for UGC NET in 2014. I honor my Ph.D. Degree in Arts & Design from the Chitkara Design School, Chitkara University, Punjab, India.

As a professional artist, I am continuing to create pieces of artwork that can express the inner thoughts of human beings and soul of the Indian society. My artwork critically views social, political, Environmental, and cultural issues.

*"My approach is not only looking at the form and spirit of the human figures as in traditional works. I pay particular attention to feelings and thoughts, as they are important expressive tools in creation. At the end, though the animal and nude series appear quite different from the basic structures, both display the same kind of direction in my visual language investigation. Some of my subjects are quite beautiful, others less so. My goal is to inspire those who see my work to look more carefully at the world around them, to discover the reality of life in unusual places."*

I was captured extraordinarily strange but beautiful figural expressions. It is the combination of human forms and gestures, symbols and elements of the environment together with the artist's skillful execution that formulated a new visual logic. The paintings are neither representation of reality nor illustration for literary text. They represent a systematic visual language that functions independently.

Mrs. Hina Bhatt is a renowned artist and a passionately driven entrepreneur, whose invaluable contributions have greatly impacted the world of art. After spending several years refining her own talent, Hina felt the need to create a platform for fellow artists. This vision led to the founding of **Hina Bhatt Art Ventures (HBAV)** in 2019.

When the world came to a standstill during the Covid-19 pandemic, HBAV emerged as a beacon of hope for countless artists across the country. What began as a small initiative turned into a ray of sunshine for many, as Hina organized online art camps, contests, and exhibitions that saw global participation and captivated audiences worldwide.

Hina dreamt of a world where art is accessible to all and envisioned art and creativity as catalysts for social change, shaping a more vibrant society.

To further her mission, Hina enrolled in the professional certificate program in Management of Social Initiatives at **IIM Kozhikode**. Armed with this knowledge, she established the **Hina Bhatt Art Foundation** in 2022. The foundation's first major art event in 2023 was a resounding success, with many more to come.

Hina's unwavering dedication and passion for the arts and artists is truly unparalleled.

The International Island Country Artists Art Society was established on a local basis with a group exhibition in an Organization held within the scope of the Citta Slow Committee Meeting in Isparta Province, Eğirdir, Türkiye on October 27, 2017. International Island Country Artists take their name from the islands in Lake Eğirdir, where they were founded. Askawana means "Island Land" in Luwian in ancient times, and the group has drawn a route by combining its name with art in this mystical journey.

International Island Country Artists is an interdisciplinary art community and has carried out different activities in many art branches. At the same time, published the International Island Country Fine Arts Magazine in 2021. "International Island Country Artists have been continuing their work without any financial support or grant since the day it was founded. All the artists in the International Island Country Artists Art Community continue their project activities and activities on a completely voluntary basis in a way that will benefit the society" All of the projects produced with the aim of ensuring the unifying power of art, the social responsibility of art and its transfer to future generations, include audio-visual projects and applications.
